- Node
- Express
- MongoDB

About Me

I am a former HR professional who recently decided to transition to a career in web development. As a developer, I take deep pride in building applications that can both address practical problems for clients, and lead to satisfying experiences for end users.

Work Experience

RECRUITMENT ASSOCIATE

Bank of the Philippine Islands
June 2019 - September 2021

- Managed the end-to-end recruitment process which included sourcing, testing, interviewing, offering acceptance, and onboarding of candidates.

Personal Projects

THE GRAND EXCHANGE

https://the-grand-exchange.netlify.app/

- A full stack application where you can buy and sell products with others.

WHAT'S FOR DINNER?

https://what-s-for-dinner.netlify.app/

- Look for meal suggestions based on user-inputted ingredients and tags. Powered by the Tasty.co API.

YET ANOTHER TO-DO LIST

https://yatdl.netlify.app/

- Yet another to-do list project that every aspiring web developer must create.
